

NAPLES BEACH RESTORATION & WATER QUALITY IMPROVEMENTS PROJECT

PROJECT UPDATE

The City of Naples begins construction in January for the Naples Beach Restoration & Water Quality Improvements Project that will significantly enhance water quality through a state-of-the-art stormwater treatment system, improve flood protection, reduce beach erosion, safeguard environmental species, and remove unsightly stormwater outfall pipes from Naples' beautiful beaches. Additionally, it will bolster the City's resiliency to climate change and protect our coastal ecosystem. Crews will be removing eight (8) city stormwater outfall pipes from Naples beaches that currently discharge stormwater into the Gulf of Mexico. The project area includes the right-of-way (ROW) along Gulf Shore Boulevard, extending from Oleander Drive to just south of 2nd Avenue South. Work is expected to occur on weekdays from 7 a.m. to 5:30 p.m.; however, some night and weekend work may be necessary. This project is expected to be completed at the end of 2026.

WHAT TO EXPECT DURING CONSTRUCTION

Currently, crews are documenting existing conditions in the project area. Crews are also actively surveying and collecting data. Residents are reminded to please use caution around the crews as they will be working in the roadway.

After the ROW has been cleared, crews are expected to begin at 3rd Street North, between Broad Avenue North and 1st Avenue North, to install the stormwater system. Then work will be done to remove and replace the water main and stormwater piping/inlets along Gulf Shore Boulevard, between South Golf Drive and just south of 2nd Avenue South. Two pump stations will be constructed: one at 3rd Avenue North, just west of Gulf Shore Boulevard, and another at 8th Avenue North. Directional drilling will be done concurrently with the stormwater system installation, beginning at the 8th Avenue North pump station site.

January 2025

CONNECT WITH US!

JOIN US FOR A PUBLIC MEETING!

Please join us at a public meeting anytime between 4:30 p.m. and 6:30 p.m. on Tuesday, January 21, 2025 at Grace Lutheran Church
860 Banyan Boulevard
Naples, Florida 34102.

The project team will be available to answer any questions and receive your comments.

STAY CONNECTED. STAY INFORMED.

For general project questions or concerns please contact the City's Public Information Consultant:

PLANNING FOR CONSTRUCTION

Construction projects present many challenges for residents and businesses, but with the right information, proper coordination, and planning, we will help you minimize those difficulties.

- **Right-of-way (ROW):** Prior to the start of construction, a survey crew will stake the ROW line. Look for wood stakes marked with “R/W” and a flag: these stakes will help you determine if you have personal property items (lighting, irrigation, landscaping, or decorative features) located within the ROW. The planned improvements will require removal of personal property items in the ROW. Mailboxes may be temporarily relocated during construction and will be reinstalled during restoration at the end of the project. Other personal items in the ROW such as trees, bushes, some monument mailboxes, and decorative items may be removed by the contractor and will not be reinstalled.

We will notify you before crews begin work in your area, including the timing for removing or relocating personal property items within the ROW. If you have questions about items within the ROW, please contact the City’s public information consultant or email at info@naplesbeachimprovements.com.

- **Access to Driveways and Side Streets:** Crews will work to minimize inconveniences due to construction. Access for residences and businesses will be maintained. The location of work will shift daily. Please be aware of where the construction work is occurring as you may need to access your property from a different direction. There may be times when entering or exiting your property that you may need to wait briefly for construction activities. You may also need to park your vehicle in an area other than your driveway during some construction activities. Our team will notify you when this is necessary.
- **Access for Services:** The construction team will coordinate with local agencies, including emergency services, municipal utilities, and transportation providers. During construction, the City’s contractor will ensure the continuation of public services such as mail delivery, garbage and recycling collection, and bus services. Police, Fire-Rescue, and Emergency Medical Services (EMS) will be informed of any road closures. If someone in your household or business requires special needs transportation services, please contact the City’s public information consultant or email info@naplesbeachimprovements.com.

NAPLES BEACH RESTORATION & WATER QUALITY IMPROVEMENTS PROJECT

JOIN US FOR A PUBLIC MEETING

Tuesday, January 21, 2025, from 4:30 p.m. to 6:30 p.m.

Grace Lutheran Church
860 Banyan Boulevard
Naples, FL 34102

The public meeting will be an open house format.
Come anytime between 4:30 p.m. and 6:30 p.m.

*Note: Two or more members of the
City of Naples City Council may
be in attendance.*

CONSTRUCTION BEGINS EARLY 2025!
